NOW READY IMPERIAL QUARTO. ENGLISH AND CHINESE DICTIONARY, WITH THE -PUNTI AND MANDARIN PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong.

LNOR comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous objeets in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word fully illustrated and explained, forming exercises for students of a most instructive nature. Both-the Court and Punti pronunciations are given, the accents being carefully marked on the best principle hitherto attuined. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast 'economy, of space, achieving a clearness not previously attained, and dispensing with those vant margins and vacant spaces which have heretofore characterized Chinese publications. To illustrate the yast scope of the work, the following facts are submitted for consideration. Chalmers' Vocabularly contains about 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the The above GOODS have been carefully selected student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than live times as many as any other Dictionary hitherto pubthe work is so complete, that a reference to its pages enables a person who underwith natives who understand nothing but Chi-
